

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

TITLE II, CHAPTER I, Revised Statutes United States—An Act to regulate the time and manner of holding elections for Senators in Congress, approved July twenty-fifth, eighteen hundred and sixty-six.

Be it enacted by the Senate and House of Representatives of the United States in Congress assembled:

SEC. 14. The Legislature of each State, which is chosen next preceding the expiration of the time for which any Senator was elected to represent such State in Congress, shall, on the second Tuesday after the meeting and organization thereof, proceed to elect a Senator in Congress.

SEC. 15. Such election shall be conducted in the following manner: Each House shall openly, by a *viva voce* vote of each member present, name one person for Senator in Congress from such State, and the name of the person so voted for who receives a majority of the whole number of votes in each House, shall be entered on the Journal of that House by the Clerk or Secretary thereof; or if either House fails to give such majority to any person on that day, the fact shall be entered on the Journal. At twelve o'clock, meridian, of the day following that on which proceedings are required to take place as aforesaid, the members of the two Houses shall convene in Joint Assembly, and the Journal of each House shall then be read, and if the same person has received a majority of all the votes in each House, he shall be declared duly elected Senator. But if the same person has not received a majority of the votes in each House, or if either House has failed to take proceedings as required by this section, the Joint Assembly shall then proceed to choose, by a *viva voce* vote of each member present, a person for Senator, and the person who receives a majority of all the votes of the Joint Assembly, a majority of all the members elected to both Houses being present and voting, shall be declared duly elected. If no person receives such majority on the first day, the Joint Assembly shall meet at twelve o'clock, meridian, of each succeeding day during the session of the Legislature, and shall take at least one vote, until a Senator is elected.

SEC. 16. Whenever, on the meeting of the Legislature of any State, a vacancy exists in the representation of such State in the Senate, the Legislature shall proceed, on the second Tuesday after meeting and organization, to elect a person to fill such vacancy, as prescribed in the preceding section for the election of a Senator for a full term.

SEC. 17. Whenever, during the session of the Legislature of any State, a vacancy occurs in the representation of such State in the Senate, similar proceedings to fill such vacancy shall be had on the second Tuesday after the Legislature is organized, and has notice of such vacancy.

SEC. 18. It shall be the duty of the Executive of the State from which any Senator has been chosen, to certify his election, under the seal of the State, to the President of the Senate of the United States.

By Mr. Leach (by permission):

WHEREAS, by the unusual and unprecedented large yield of grain in this State last year, and the lack of tonnage to remove the crop, there is, of necessity, on storage in the various grain centers of California something like eight hundred thousand tons of wheat awaiting shipment to the foreign markets; and whereas, the greater part of this grain is on storage within the corporate limits of several cities and towns, and under the circumstances it cannot be removed before the first day of March next ensuing, and therefore, in addition to the State and county tax under the existing laws, it will be subject to municipal taxation by the authorities of the cities wherein it is stored, thereby subjecting the owners to an extra and onerous tax, not just in equity or principle, and one that promises to result in great injury both to individuals and the municipalities concerned, for the reason that the grain in question is really in course of transportation to market, and while in storage is only awaiting an opportune time for shipment to its final destination, and the levy of the above mentioned municipal tax at this time may possibly cause forced sales and the throwing on the market of a large quantity of grain, breaking down the present low prices, resulting in a loss to the producing community of this State amounting to millions of dollars, and inuring to the benefit of only a few speculators and shippers; and therefore, be it

Resolved, That the Committee of Ways and Means is hereby instructed to consider the matter, and report to the House, by bill, or otherwise, what action or remedy is necessary.

LEACH, of Solano.

REPORTS OF STANDING COMMITTEES.

By Mr. McClure:

MR. SPEAKER: Your Committee on Judiciary, to whom was referred Assembly Resolution No. 9, have had the same under consideration, and herewith respectfully submit their report relative thereto.

The resolution calls for an opinion from your committee upon two propositions:

1. Whether the provisions of law for the classification, organization, and government of municipal corporations must be contained in one bill embracing all classes, or whether they may be divided into separate bills applicable to separate classes.

2. Upon "the general scope and meaning of section six, article eleven of the Constitution," relating to municipal corporations.

We have given as much attention to this subject as we have been able, though the many other demands upon our time have rendered it impossible for us to devote as much time to the consideration of it as its importance deserves. In the performance of this duty we have had the aid of able counsel who have kindly volunteered their services, and have presented to us the authorities bearing upon the questions involved. In the view we take of the Constitution, however, it is a matter simply of construction, where the decisions in other States under different constitutional provisions do not materially assist in the interpretation of the peculiar language before us. Keeping in mind the decisions of our Supreme Court, and the general rules for the construction of constitutions and statutes, we have reached the following conclusions:

1. There should be passed one general law classifying, according to population, all the municipal corporations of the State, and another general law providing a complete scheme of government for such corporations so classified, and a scheme of organization, or the machinery whereby such corporations can organize under this scheme of government. The Constitution uses the words "classification, organization, and incorporation." By "classification," we understand a division of municipal corporations into classes according to population. By "incorporation," we understand the creation of a municipal corporation and the method of its existence. By "organization," we understand the organizing of a municipal corporation, under general laws of incorporation. There is a confusion of terms in this section, but we are convinced that the section was intended to convey the above meaning.

For each class of cities and towns there must be a general law of incorporation. For them all,

whether beginning their existence or simply changing from their charters heretofore formed to the general laws to be enacted under the new Constitution, there must be provided the machinery whereby they can elect to come under the provisions of those general laws.

This law providing for this machinery of election, and these general laws of incorporation, should be embraced in one Act.

This general scheme of government should embrace such general provisions as may be applicable to all the various classes, and also such additional provisions as may not be applicable to some but may be necessary for others, thus providing fully and completely a comprehensive plan for the classification, organization, and government of all the municipal corporations of the State. In most respects all municipal corporations are alike; they are all public corporations to which certain powers of a local governmental nature are delegated in trust, chiefly for the benefit of those who inhabit the municipality. Most of these powers may be and should be the same in all the municipalities throughout the State. There must be the power to make, interpret, and execute regulations concerning health, police, parks, public streets, and buildings, etc. This power must be distributed among legislative, judicial, and executive officers, in accordance with the American plan of government. So far as these general outlines are concerned, it is easy enough to embody them in one statute, which shall serve as an "Enabling Act," as Chief Justice Marshall terms the charters of such corporations, in a common charter for all the municipalities in the State. It is highly important that this should be done in order that the law may be as uniform as possible in all parts of the State, to the end that all the people may enjoy equal rights and privileges, and that they may readily ascertain what the law is. Evidently this was the purpose and the meaning of the Constitution.

There are some municipalities in the State, however, which by reason of their great population may require some officers and powers not necessary to other municipalities. This is especially the case where a county government is consolidated with a city government. Counties are legal subdivisions of the State, charged with the performance of many functions in which all the people of the State have an interest, such as the assessment and collection of the revenue, the arrest and trial of those who violate the laws of the State, the holding of elections, making returns thereof, etc. For such municipalities, and perhaps for some others, it will be necessary to make different provisions in the various classes. In our opinion, such provision for separate classes should be studiously reduced, in order to maintain as nearly as possible the general plan of uniformity. This we regard as merely extending to public corporations the principle long since applied to private corporations—of confining them to powers conferred by general laws. Formerly private corporations were incorporated by a special Act in each case. In the course of time it was found to be not only unnecessary, but productive of much evil. Soon after the decision in the Dartmouth College case, the plan of forming such corporations under general laws, subject to legislative control or change, was adopted. It has ever since been adhered to, and now the principle is extended in this State to municipal corporations. It has long been the practice to form county governments under general laws; there is no reason why city governments should not be formed as much as possible in the same way.

As to classification, we understand that it must be according to population. It can be in no other way, and it must not be done by population in an arbitrary manner, or for the purpose of defeating the aim of the Constitution to prevent special legislation. There should be as few classes as possible, so as not to disturb the plan of uniformity any more than is actually necessary.

2. In regard to the general scope and meaning of section six, article nine, we are of the opinion that it contemplates two classes of municipal corporations, to wit: one embracing those already organized at the time of the adoption of the Constitution of eighteen hundred and seventy-nine, and another embracing those which may be formed hereafter. The latter are to be formed exclusively under general laws, and are to be subject to the control of the Legislature by general laws. No more special charters can be granted. The former—those municipal corporations now existing under special charters—are to continue under such charters until a majority of the electors in each of them severally shall elect to come under the general laws hereafter to be passed. So far as purely municipal functions are concerned, the special charters cannot be changed by general laws. This was decided by our Supreme Court in *Desmond vs. Dunn*. The Court in this case said:

"Section six, of article eleven, provides that cities and towns heretofore organized or incorporated, may become organized under general laws whenever a majority of the electors voting at a general election shall so determine, and shall organize in conformity therewith; and cities and towns heretofore or hereafter organized, and all charters thereof framed or adopted by authority of this Constitution, shall be subject to and controlled by general laws. Both of these clauses plainly refer to charters which may be framed by authority of the present Constitution, and the latter clause is expressly limited to charters so framed. Neither applies to charters existing before the adoption of the present Constitution, except by implication; all such charters remain in force until a majority of the electors of any corporation having a charter determine to become organized under general laws, or frame a charter for their own government. These are the only provisions which are expressly made applicable to cities incorporated previously to the adoption of the Constitution; and the first expressly provides that any of such cities may become organized under general laws whenever a majority of the electors of such city shall so determine, and the other that any charter framed or adopted under the present Constitution, shall be subject to and controlled by general laws. But charters not framed or adopted by

authority of said Constitution, need not be subject to or controlled by general laws. Therefore the charter of the City and County of San Francisco, which antedates the present Constitution, and was not framed or adopted by authority of it, is not subject to or controlled by general laws. From which it follows that if the McClure charter falls within the term 'general laws,' it can not have any force or effect within the City and County of San Francisco until a majority of the electors thereof so determine in the manner provided in the Constitution; unless there be some other provision of the Constitution which gives force and effect to said charter, without such determination of a majority of the electors."

We have thus endeavored, briefly, to state the result of our attention to the inquiries of the Assembly, without undertaking to give in extenso the reasons by which we have been led to these conclusions. It may be well to add, that we deem it of very great importance that the plan of legislation on this subject here outlined, should be substantially followed. A material departure from it will, we think, render such attempted legislation unconstitutional. No harm can possibly come from an adherence to this plan. There can be no question but that legislation in accordance with it will be constitutional. Of course any portion of such a general law may be hereafter amended or repealed.

McCLURE, Chairman.

MINORITY REPORTS.

Also:

ASSEMBLY CHAMBER, February 1, 1881.

MR. SPEAKER: The undersigned, members of the Judiciary Committee, dissent from the decision of the majority of said committee, upon the questions submitted by a resolution of this Assembly, and present this as a minority report. The resolution was as follows:

Resolved, That the Judiciary Committee be requested to give the Assembly its opinion: Must the law providing for the classification of municipal corporations, the law for the government of municipal corporations of the various classes, and the law for the organization of municipal government under these said general laws, be incorporated in one bill, or can they be passed separately, as introduced? And further, that the Judiciary Committee be requested to give its opinion upon the general scope and meaning of section six, article eleven, relating to municipal corporations.

The committee (with the exception of Mr. Young, of Sacramento,) were unanimously of the opinion, as reported to the Assembly by the Chairman, that a general law in a separate bill, providing for the classification of cities and towns of the State, according to population, could be passed, and that it would be constitutional. With that decision we agree.

The committee then decided that a general law for the organization and incorporation of those cities and towns so classified must be included in one bill. We dissent.

If a separate bill can be passed for the classification, why not one providing for their organization? And by the same rule of reasoning, why should not a general law, affecting all of a class, be passed as a separate bill, providing for the incorporation, or in other words, the charter or rule of government of the cities or towns of the different classes as so classified?

The word classification cannot, by any possibility, be construed to mean anything more or less than separating or dividing into classes.

In construing the language of the Constitution, we think, first, that the plain, common sense, popular idea of the meaning of words should be resorted to, and next, the meaning as viewed technically, or tortured by forced construction.

The word incorporation, as used, doubtless means the charter, or rules of government which are to be passed by the Legislature. And after the votes of any city or town have decided to organize, then the incorporation or charter being upon the statute book, takes effect, becomes self operative by process of law, and is then the law for the government of the city or town.

Whenever the cities and towns are classified, a general law affecting all in one of the classes may be passed as a separate bill, and laws for each of such classes should be separate. Any other course must certainly result in confusion, uncertainty, and defeat the real intent of the Constitution.

The word organization, as used in section six, article eleven, must mean the manner of and form for allowing the voters to determine whether they will place themselves within the class provided and in conformity therewith, and the way for canvassing and determining the result and giving notice thereof, and who may act as officers of the election, etc.

We believe that separate bills for the government (incorporation) of the various classes (one bill for each class) may constitutionally be passed.

R. F. DEL VALLE.
F. E. BAKER,
J. B. REDDICK,
E. L. WHIPPLE.

The names of Messrs. F. E. Baker, of Yolo, and E. L. Whipple was, at their several requests, ordered stricken from the above report.

Also, by Mr. McClure :

MR. SPEAKER: The undersigned, members of your Judiciary Committee, to whom was referred a resolution calling for the opinion of the committee upon certain questions arising under section six, article eleven, of the Constitution, respectfully dissent from the report of the majority of said committee upon said resolution, and report that we have had the same under consideration, and return the following as the answers which, in our opinion, should be given to said questions:

First—A bill for the classification of municipal corporations may constitutionally be passed as a separate measure.

Second—A bill for the organization of all municipal corporations, that is, providing for the manner and means by which new corporations may be formed, and by which corporations now existing may organize under general laws, may constitutionally be passed as a separate measure.

Third—Bills providing for the mode and form of government of municipal corporations so organized and classified, may constitutionally be passed as separate measures, one bill for each class.

We are led to these conclusions by a consideration of the language of the Constitution itself, and our conclusions are strengthened by the decisions of the highest Courts of various States having similar constitutional provisions, in all of which States the point, whenever raised, has been decided in accordance with the views herein expressed. A law, complete in itself, providing for the government of a legal or constitutional class, has always been held to be a general law. Believing, as we do, that grave dangers may result from the construction placed upon this section by a majority of the committee, we have felt ourselves bound to express our dissent from the doctrine so enunciated.

MINORITY REPORT.

Also:

ASSEMBLY CHAMBER, SACRAMENTO, February 2, 1881.

MR. SPEAKER: We, the undersigned members of the Committee on Judiciary, respectfully submit the following adverse report upon Assembly Bill No. 152:

We are of opinion:

First—That the bill should provide for the election of all officers in consolidated cities and counties as well as in counties. That this may be done is held in the cases of *Barton vs. Kallack*, 7 Pac. C. Law Reporter, 330, and *In re Stewart*, 53 Cal., 745. And we submit that if it may be done, it ought to be done, to make the Act general in its operation.

Second—We are of opinion that the terms of the officers should be limited to two years, as that has been the limit of the terms of such officers for a long series of years, and it does not involve the holding of any additional elections, as members of Congress and of the Legislature have to be elected every two years.

We think, if any change in these terms had been desired by the people, there would have been some indication of such desire in the new organic law.

Third—We are of opinion that the terms should commence in January instead of March. We think it is clearly indicated by the provisions of the Constitution, that it was intended that the terms of all officers elected after its adoption should commence at the beginning of the year.

We therefore recommend that a substitute, embodying the views herein expressed, be adopted, instead of the bill reported by the majority of the committee.

JOHN REYNOLDS,
JOS. P. JONES,
W. D. LONG,
DAVID McCLURE.

Mr. Hartson moved that Assembly Bill No. 152, above reported

HENDRICK, Chairman.

By Mr. Felton:

ASSEMBLY CHAMBER, SACRAMENTO, February 7, 1881.

MR. SPEAKER: Your Committee on Corporations, to whom was referred Assembly Bills Nos. 97, 182, and 303, which have been in the possession of your committee more than ten days, now report the same back to the Assembly for the reason that they are allowed to retain them no longer under the rule of this House, and your committee have no intention of taking the initiatory in breaking the rules, especially after this body so radically evinced its desire on Friday last, by a vote with but three or four dissenting voices, to have bills reported back, with or without action, at the expiration of ten days from their receipt.

In this connection your committee earnestly but respectfully desire to state that though perhaps in error, they were heretofore of the opinion that more mature consideration of bills could be had in committee than in the House, from the fact that information pro and con could be had, and facts more fully ascertained. Indeed, they had supposed that was the reason committees were appointed. They had thought that the time of nine men had better be consumed than that of eighty, but in this they may also have erred.

Your committee may also have erred when they thought ours was a representative government, with the right of petition guaranteed to all, and when with this view they had made it convenient to hear, and did listen to the views of parties interested in the several bills before them, they had thought that when bills were to be passed upon, the passage of which would affect the greater proportion of the people of the State, would involve large property interests, would promote or retard the enterprise or development of the resources of the country, would discriminate justly or unjustly against industries or investments, it was a right of the parties affected, and of the author, to be heard on the measure.

And, further, your committee desired to act intelligently in the matter, or not at all, and beg to state that they are a modest committee as to their ability, and do not assume that degree of omniscience that would enable them to act intelligently without recourse to the sources of information usually resorted to. To do this requires more time than your committee have been permitted to use, and hence this report without action.

Notwithstanding that there may be an earnest desire on the part of parties interested, though not members of this House, for the immediate report of certain bills, they could not conscientiously be referred back with any recommendation until after mature deliberation, in order that justice might be done to all.

With these reasons for the nature of the report, and acting on the rather broad and emphatic hint given your committee on Friday last, we now report these bills back without action, not having had time to properly consider them.

FELTON, Chairman.

Mr. Del Valle moved that three hundred copies of the above report be ordered printed and placed on the members' desks.

Lost.

REPORT OF THE COMMITTEE ON WATER RIGHTS AND DRAINAGE.

MR. SPEAKER: Your Committee on Water Rights and Drainage, to whom was referred Assembly Bills Nos. 4 and 5—Entitled an Act to repeal an Act entitled "An Act to promote drainage," approved April twenty-third, eighteen hundred and eighty, beg leave to make the following report:

Your committee have, in pursuance of a resolution adopted by the Assembly, instituted an investigation, which has been such as to cover the entire subject. We have taken some seven hundred folios of testimony, and heard a number of witnesses for and against the bills. We find:

First—That the entire cost of the work done under the direction of the Board of Directors, under the provisions of the Act above mentioned, according to the sworn statement of the Secretary of the Board, and the estimates of the engineers, has been four hundred and seventy thousand seven hundred and eighteen dollars and fifty-two cents. Of this amount the con-

tractors have already received in warrants three hundred and twenty thousand three hundred and twenty-one dollars and eighteen cents, leaving a balance of one hundred and fifty thousand three hundred and ninety-seven dollars and thirty-four cents still due them. This is exclusive of repairs rendered necessary by the floods, the estimates for which have not yet been received. They will not materially swell the aggregate, however.

Second—That this money was expended in the construction of dams for the impounding of mining debris, one on the Bear River, at a cost of seventy-three thousand five hundred and ninety-one dollars and forty-four cents, and one on the Yuba River, at a cost of one hundred and twenty-one thousand and sixty-nine dollars and eighty-four cents; levee on the south side of the Yuba River, above the railroad, nineteen thousand seven hundred and forty-four dollars and fifty cents; levee on the south side of the Yuba River, at mouth, twenty-one thousand four hundred and fifty dollars and thirty-five cents; brush work on the Yuba River, at various points, twenty-one thousand nine hundred and twenty-one dollars and thirty-four cents; levee work on the north side of the Yuba River, Brown's Valley Grade, three thousand seven hundred and seventy-one dollars and thirty-two cents; levee on north side of Bear River, at Johnson's Crossing, twenty-two thousand nine hundred and sixty-eight dollars and thirty-six cents; levee on Bear River, at Webster's Crossing, twenty-one thousand two hundred and fifty-nine dollars and ninety-eight cents; levee on Bear River, upper south side, thirty-two thousand eight hundred and sixty-one dollars and fifty cents; Bear River, lower south side, twelve thousand seven hundred and fifty-four dollars and eleven cents; Bear River, north side railroad bridge to Long Bridge, twelve thousand one hundred and fifty-two dollars and thirty-four cents; levee on Sacramento River, above the town of Washington, eight thousand three hundred and seventy-seven dollars and fourteen cents; levee on the Sacramento River, Todhunter's break, four thousand six hundred and sixty-five dollars and twenty-one cents; Yuba River, Citizens' Levee, twelve thousand nine hundred and eighty-five dollars and fifty cents; levee on Feather River, west side, opposite Nicolaus, twenty-eight thousand one hundred and six dollars; levee on Bear River, north side, Long Bridge to Oakley's, eight thousand seven hundred and seventeen dollars and thirty-nine cents; levee on Sacramento River, foot of V street, six thousand and thirty-one dollars and eighteen cents; levee on the upper Sacramento River, eleven thousand two hundred and thirty-eight dollars and eleven cents; weir on the Sacramento River, at English break, ten thousand five hundred and forty-eight dollars and sixty-one cents. It will thus be seen that of the four hundred and seventy thousand seven hundred and eighteen dollars expended, two hundred and seventy-six thousand and fifty-six dollars and seventy-two cents were expended in the construction and reformation of levees, rectifying channels, etc., while only one hundred and ninety-four thousand six hundred and sixty-one dollars and twenty-eight cents were expended in the construction of brush dams.

Third—As to the financial management of the work, your committee are of the opinion that it could not have been placed in safer hands. From the testimony of reliable witnesses, it has been conclusively established that the contracts have invariably been let to the lowest bidders, after having been fully advertised, and the awards were made openly and publicly, in the presence of the bidders. During the whole course of the investigation, while some witnesses have attacked the policy and wisdom of this legislation, and asserted the impracticability of the scheme, no one has even hinted at anything like collusion or mismanagement in the financial affairs; and your committee are fully satisfied that not a dollar of the money has been mispent or misappropriated. On this point, we respectfully direct your attention to the sworn testimony of Charles M. Cogan, as to the manner of letting contracts, approving bills, and certifying the same (page 87 of the testimony).

Fourth—Your committee, in considering Assembly Bills Nos. 4 and 5, have considered as well the report of the State Engineer, and the testimony of the Consulting and Resident Engineers, as to the policy and feasibility of the works undertaken by the Commission. We have likewise taken testimony of experts as to the works now in process of construction under the direction of the Commission, in the fulfillment of the purposes of the Act entitled "An Act to promote drainage." From the consideration of such reports and testimony, your committee have arrived at the following conclusions:

1. That the recommendations of the Engineers are wise, and that the benefits to flow from the works planned and projected by them will be substantial and permanent, not only to the people of the district, but to the State at large, in this, that valuable property will be saved from destruction, and a vast increase in the taxable property of the State will result in the near future.

2. In the opinion of your committee, unless the system of drainage contemplated by the State Engineer, or some other similar system, shall be carried out, the navigation of these rivers must in time be wholly destroyed, and the harbor and bay of San Francisco will be in imminent danger of being ruined.

3. Your committee are of the opinion, from the evidence before them, that, while the system planned and inaugurated is one experimental in its nature, that system is based upon sound scientific principles, sanctioned by such renowned engineers as Captain Eads, General Alexander, and Colonel Mendell, and that the experiment has not as yet had a fair trial. In this view it would, in our opinion, be an unwise act on the part of the Legislature of this State to repeal the Act in question. The sum of four hundred and seventy thousand dollars has been expended thus far, and this expenditure will be almost wholly lost if the work is stopped at this time. And it must be remembered in this connection that the taxpayers of the mining counties included in this drainage district have paid of this amount, fifty thousand one hundred and seventy-one dollars, as a water tax, besides their proportion of the district tax,

amounting to fifty thousand three hundred and thirty-one dollars, while both miners and farmers in the district, as well as all other property owners, have contributed their share of the State tax. Thus, one portion of the district has paid two taxes, and the other portion three taxes.

4. It is feared by some members of your committee, that the absolute repeal of the Act to promote drainage might be productive of confusion and uncertainty in regard to the collection of delinquent taxes.

5. From the testimony of the State Engineer, and the recommendation of the Consulting Engineers, as well as from the testimony of other experts, your committee are led to believe that the works planned and begun will accomplish all that they are intended to accomplish, and that the evils and mischiefs intended to be remedied by the Act are such as to demand at the hands of the people of this State, the application of some efficient remedy; and if the present efforts being prosecuted by the Commission to accomplish this result shall fail, then it would devolve upon the State, as an imperative duty, to adopt some other means to accomplish the same result.

6. In view of these considerations, your committee recommend that Assembly Bills Nos. 4 and 5, to repeal an Act entitled "An Act to promote drainage," approved April twenty-third, eighteen hundred and eighty, be indefinitely postponed.

BROWN, Chairman.

Pending the reading of above report, Mr. May moved to dispense with the reading of the report, and that it be printed and laid on the members' desks.

Lost.

REPORT OF SPECIAL COMMITTEE.

By Mr. Baker, of Sacramento (by permission):

ASSEMBLY CHAMBER, February 18, 1881.

MR. SPEAKER: Your Committee on Relief, to whom was delegated the power to charter two boats, one to be sent up the river, and one down the river, for the purpose of rescuing any of our people whose lives might be in danger from the high waters, beg leave to report as follows:

That on account of the scarcity of steamers we could only obtain on the fourth instant the steam launch of the State Engineer's Department, and sent it up the river; they succeeded in rescuing and bringing a family of three children to their friends in this city; they found considerable stock along the banks of the river awaiting transportation, but being directed to look after the lives of the people, we did not deem it proper to devote our time to stock.

On the morning of the fifth we succeeded in chartering the steamer "Enterprise," and went down the river a distance of sixty (60) miles, and while we found that the entire country, from Sacramento to Suisun Bay, one vast scene of desolation, and entirely submerged, the residents had been removed prior to our arrival, by small boats.

We passed down the river by Courtland, Walnut Grove, Clarksburg, Isleton, to Rio Vista and Emmaton, and returned by way of Steamboat Slough and Sutter Island. We devoted our main efforts to the last mentioned place, for the reason that they were not in line of steamboats, while Courtland, Walnut Grove, Isleton, and Emmaton were directly on the line of travel, and had three steamers that touched daily at their landings.

We found that, excepting to remove stock, for which we had no authority under the resolution, we could not be of any use to the people, so we released the steamer to the company, who immediately dispatched her down the river for stock. We found that the steamers were doing

all that could be done to save the property of the people, and that no advantage would accrue to the residents of the low lands by our keeping under charter the steamer.

We herewith report the several bills as presented to us, as under resolution, viz.:

Central Pacific Railroad Company, for use of steamer.....	\$36 64	
Eleven tons coal.....	66 00	
Wages of crew.....	34 31	
Board of crew.....	11 05	
Oil.....	2 00	
		\$150 00

MINORITY REPORT.

By Mr. Reynolds:

ASSEMBLY CHAMBER, SACRAMENTO, February 19, 1881.

MR. SPEAKER: The undersigned members of the Judiciary Committee respectfully submit the following minority report, as to the proposed amendment to section nine, of Article XIII, of the Constitution, enlarging the power of the State Board of Equalization:

First—We are of the opinion that no further powers should be given to this Board. It is contrary to the whole theory of our State government, as established by the present Constitution, that any State Board should be allowed to interfere with the administration of affairs, purely local, within the counties. If this amendment should be submitted and adopted, it would, we think, be the only instance in which such interference is allowed, and that it would be an innovation unwarranted and dangerous in its results.

Second—If any additional power is to be given to the State Board of Equalization, we think, at least, it should be limited to increasing or reducing classes of property capable of classification, but it should not extend to individual assessments. If this power is conferred upon the State Board it will virtually take away all local power in the matter of the assessment and equalization of property values. The objections to such a system are, in our judgment, very apparent. It is an invitation to capitalists to seek the control of this State Board for their own protection, or for the oppression of the smaller taxpayers. It furnishes to the small taxpayers no relief, as the expense of an appeal to this Board, sitting at the Capital, would preclude any but the very wealthy from availing themselves of its benefits, if benefits could be obtained by appeal. If the large taxpayers should fail to obtain control of the State Boards at future elections, there is no guarantee that it would not be selected under influences much worse.

For these, and other reasons that will readily occur to the members of this House, we dissent from the recommendation of the majority of the committee, and recommend that the proposed amendment be not adopted.

WHIPPLE,
DEL VALLE.

ASSEMBLY CHAMBER, SACRAMENTO, February 24, 1881.

MR. SPEAKER: Your Committee on Public Expenditures and Accounts, to whom was intrusted the duty of investigating the charges against Hon. D. M. Kenfield, State Controller, published in the *Record-Union*, in the City of Sacramento, January eleventh, eighteen hundred and eighty-one, ask leave to report as follows:

Your committee have not deemed themselves confined in their investigation to the simple charge that the wife of the Controller was drawing a salary from the State without performing any service whatever, but have extended the inquiry, by dividing the charge into two branches, viz.: Whether the lady draws a salary from the State, and whether she renders any service as an equivalent.

In pursuit of the information required by the Assembly, as expressed in the resolution hereto attached, your committee examined Hon. W. H. Mills, manager of the *Record-Union*—the newspaper in which the charge appeared; Hon. D. M. Kenfield, Controller; General W. A. Davies, Deputy Controller; Mr. M. W. Wilder, Bookkeeper, Controller's Office; Messrs. C. H. Holmes, and E. E. Ames, Clerks to the Controller; and Mr. Anthony Hubbs, ex-Bookkeeper of the Controller's office.

The testimony and statements of these several witnesses accompanies this report, and we therefore do not deem it necessary to recapitulate it here. The findings of your committee, based upon the same, are as follows:

First—That the name of N. H. Kenfield, the clerk in question, appears upon the payroll of the Controller's office since the first day of April, eighteen hundred and eighty, as drawing a salary of one thousand six hundred dollars per annum.

Second—That no evidence was presented to your committee of the service performed by said clerk, prior to October, eighteen hundred and eighty, outside of the testimony of the Controller, but it appears that subsequent to such date or time she has performed the duties of clerk either at her home or in the Controller's office outside of regular office hours.

For the committee.

CRANK, Chairman.

REPORTS OF STANDING COMMITTEES.

By Mr. Camron :

ASSEMBLY CHAMBER, SACRAMENTO, March 1, 1881.

MR. SPEAKER: Your Committee on Apportionment, to whom was referred Assembly Bill No. 379—An Act entitled "An Act to divide this State into Senatorial and Assembly Districts, and provide for the election of Senators and Assemblymen therein"—have had the same under consideration, and respectfully report the same back, and recommend that it do not pass.

MR. SPEAKER: Your Committee on Ways and Means, to whom was referred the resolution hereto attached, submitted on the twenty-ninth day of January, by Mr. Leach, of Solano, beg leave to report that we have considered the subject, and recommend the passage of Substitute for Senate Bill No. 197—as forbidding double taxation, and therefore covering the subject matter of the resolution.

MAY, Chairman.

WHEREAS, By the unusual and unprecedented large yield of grain in this State last year, and the lack of tonnage to remove the crop, there is, of necessity, on storage in the various grain centers of California something like eight hundred thousand tons of wheat awaiting shipment to the foreign markets; and whereas, the greater part of this grain is on storage within the corporate limits of several cities and towns, and under the circumstances it cannot be removed before the first day of March next ensuing; and therefore, in addition to the State and county tax under the existing laws, it will be subject to municipal taxation by the authorities of the cities wherein it is stored, thereby subjecting the owners to an extra and onerous tax, not just in equity or principle, and one that promises to result in great injury both to individuals and the municipalities concerned, for the reason that the grain in question is really in course of transportation to market, and while in storage is only awaiting an opportune time for shipment to its final destination, and the levy of the above mentioned municipal tax at this time may possibly cause forced sales and the throwing on the market of a large quantity of grain, breaking down the present low prices, resulting in a loss to the producing community of this State amounting to millions of dollars, and inuring to the benefit of only a few speculators and shippers; and therefore, be it

Resolved, That the Committee on Ways and Means is hereby instructed to consider the matter, and report to the House, by bill or otherwise, what action or remedy is necessary.

By Mr. Patterson, of Nevada :

REPORT OF SPECIAL COMMITTEE.

By Mr. Mathews, of Tehama:

MR. SPEAKER: Your special committee appointed to investigate certain charges preferred against Hon. F. L. Hatch, Superior Judge of Colusa County, beg leave to submit the following report:

Your committee met and required specific charges to be filed, which was done. Said specific charges are made a part of the testimony herewith submitted.

It was found that to summon the witnesses (over one hundred) to Sacramento, would put the State to an expense of not less than six thousand dollars, and in order to avoid this expense, it was resolved by the full committee that a quorum should proceed to Colusa and hold the investigation there. Accordingly, Messrs. Mathews, Leake, and Bost proceeded to Colusa. P. K. Stockton was chosen shorthand reporter, and Thomas Allen, Sergeant-at-Arms. It was resolved that the prosecution and defense be allowed a reasonable number of attorneys, and that all points be submitted without argument.

The committee also decided to confine the testimony to the conduct of Judge Hatch during his present term of office.

From the evidence submitted (which is made a part of this report), your committee have arrived at the following conclusions:

First—That upon the general charge of habitual intemperance, the evidence was conflicting, but the preponderance was in favor of the defendant, and we do not consider the charge substantiated.

Second—That while there was direct testimony to the effect that the said F. L. Hatch has been seen under the influence of some stimulant on two or three occasions during his present term of office, the testimony failed to show that he has ever been under the influence of drink to such an extent as to incapacitate him from transacting the business of his office; and this conclusion is confirmed by the records and calendar, which show that the business of that Court has been kept up, and that of nine cases appealed to the higher Court, seven were affirmed.

Third—The charge of corruption was withdrawn.

Fourth—The charge of drunkenness upon the bench was not established.

A large number of witnesses were examined, and many more were on hand ready to testify on behalf of the defense, but owing to the shortness of the time, they could not be heard.

Your committee are therefore of the opinion that while the evidence shows that the Judge uses intoxicating liquors to some extent, still it is not to an extent that would warrant the State to interfere; in other words, there are not sufficient grounds to justify impeachment proceedings.

We recommend, therefore, that no further proceedings be heard in the matter.

MATHEWS, Chairman.

Report adopted.

By Mr. Mathews, of Tehama: A report of the expenses incurred by the special committee of investigation in the matter of certain charges against Hon. F. L. Hatch was presented by Mr. Mathews, of Tehama, and ordered referred to the Committee on Attachés, Employés, and Contingent Expenses.

By Mr. Gay:

ASSEMBLY CHAMBER, SACRAMENTO, March 1, 1881.

MR. SPEAKER: Your Committee on Public Grounds and Buildings beg leave to make a final report of all matters in their hands, and ask that it go to proper printing.

GAY, Chairman.

The report above mentioned ordered printed in the Appendix to the Journal.

By Mr. Edwards:

ASSEMBLY CHAMBER, SACRAMENTO, March 1, 1881.

MR. MESSAGE FROM THE GOVERNOR.

The following message from the Governor was read:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA, }
SACRAMENTO, March 3, 1881. }

To the Legislature of the State of California:

Assembly Concurrent Resolution No. 25, passed by your honorable body, officially brings to my notice your intention to adjourn on the fourth instant. I deem it my duty to call your attention to the fact that no Act for the appropriation of money to pay the necessary expenses of the State government for the ensuing two fiscal years has been passed.

The Constitution states, "no money shall be drawn from the treasury but in consequence of appropriations made by law." The passage of this Act is of vital importance to the welfare and best interests of the State. It has no political significance; it is an absolute and imperative necessity, the neglect of which must result disastrously. Either one of two results must follow this failure, viz.: to open at the expiration of the present fiscal year our prisons and asylums, close our Courts, and generally stop the machinery of the government; or you compel the Executive to convene your body in extra session, at a great expense to the taxpayers, and in all probability at an inconvenient time to yourselves.

The merits and necessities of this measure are contained within itself, and cannot, under any circumstances, conflict with any other public or private measure, whether political or otherwise.

The amount in the General Fund February twenty-eighth, was six hundred and eighteen thousand four hundred and seventy-nine dollars and thirty-two cents. Bills appropriating money payable out of such fund passed at this session and approved, amount to one hundred and seven thousand and eighteen dollars. This amount, with others appropriated by Acts now on their final passage in your body, will aggregate the sum of four hundred thousand dollars, thus leaving a balance of only two hundred thousand dollars to carry on the government to the end of this fiscal year, an amount inadequate for the purpose.

In connection with the passage of an appropriation bill, the consideration of a tax levy Act is not the least important, as without it the State Board of Equalization would be powerless to fix the rate of taxation for State purposes.

Fortunately, the Constitution permits the dispensing of the several readings in cases of urgency, and it will certainly not be denied that the passage of the measures alluded to are emphatically urgent. There is no law or prohibition against the continuous extension of the Legislature, and but a few days devoted exclusively to the passage of Acts of great public importance would materially aid the interests of the State. I bear full testimony to your fidelity in the discharge of your duties; they have been onerous and burdensome. The great responsibilities resting upon you as legislators have been duly considered, and hasty action has not characterized your labors. Hence I feel in communicating with you on the necessity of not adjourning until you have passed an appropriation bill, and its adjunct, a tax levy Act, that I am acting in accord with your own patriotic motives and unselfish desire to promote the best interests of the State.

Respectfully,

GEORGE C. PERKINS, Governor.

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA, }
SACRAMENTO, March 4, 1881.

To the Assembly of the State of California:

I herewith return Assembly Bill No. 108 to your honorable body, without approval, entitled "An Act to amend sections two hundred and four, two hundred and five, two hundred and six, two hundred and eight, two hundred and nine, two hundred and eleven, and two hundred and fifteen of an Act entitled "An Act to establish a Code of Civil Procedure," approved March eleventh, eighteen hundred and seventy-two, relating to selecting, returning, and drawing Grand and trial jurors for the Courts of record in this State.

The Act amends sections two hundred and nineteen and two hundred and forty-one of the said Code, which are not included in the title, and as they are cognate to the other sections amended in the Act, confusion would follow by the approval of the bill as it stands, while constitutional objections also intervene to its approval; I therefore return it for correction of title.

ASSEMBLY CHAMBER, February, 1881.

MR. SPEAKER: Your Committee on Agriculture, Mining, and Mechanic Arts, respectfully submit the following report of the departments of the State University at Berkeley, visited by us on Friday, February second, eighteen hundred and eighty-one:

The Mining and Mechanic Arts College we found well and ably conducted, and every advantage taken of the facilities placed in the hands of the Faculty to give the students a good and substantial knowledge of the course of studies followed in this branch of the institution, and recommend an appropriation of eight thousand dollars, to continue the operation and advance the instruction in these colleges.

In the Agricultural Department your committee was most favorably impressed with the effort to make the instruction, as far as possible, practical as well as theoretical, and deem it essential to the interest of the college that the library should be at once moved to their new quarters in the Bacon building, in order to allow this department to occupy the room originally intended for it. This will provide ample room for the further testing of the soils and waters of the State, which has of necessity been delayed. In connection with this department the practical growing of the various kinds of seeds, grains, vines, and trees, is a most valuable acquisition.

For the further investigation and operation in this department, your committee recommend an appropriation of ten thousand dollars.

Altogether our visit was a most interesting one, it being particularly satisfactory to the committee to note the interest taken in the several departments, and the effort made to make the course of instruction as practical as circumstances will permit.

(Signed:)

PARIS KILBURN, Chairman,
OSCAR LEWIS,
GEORGE WOOD,

PROTEST.

By Mr. Hale:

MR. SPEAKER: I respectfully protest against the decision and action of the Speaker, made and taken on the fourth day of March, A. D. eighteen hundred and eighty-one, upon Assembly Bill No. 475—Entitled "An Act to amend an Act entitled an Act to establish a Political Code, approved March twelfth, eighteen hundred and seventy-two, by adding thereto two new sections, to be known as sections three thousand six hundred and sixty-four and three thousand six hundred and sixty-five, relating to assessment of railroads and other property, by the State Board of Equalization and County Assessors, for the purposes of taxation," by which decision and action said bill was declared passed and adopted by said Assembly and so certified by said Speaker. The ground of this protest being that said bill, which after being first passed by this Assembly, on the first day of March, A. D. eighteen hundred and eighty-one, was, on the fourth day of March, eighteen hundred and eighty-one, in a material matter amended by the Senate, and as so amended, was passed by the Senate and returned to this Assembly for its further action. That on the vote taken on the motion to concur in said Senate amendments, and the only action taken by this Assembly on said bill as amended in the Senate whereby it was passed by this Assembly, there was less than a majority of the members of the Assembly voting therefor; and, therefore, said bill having upon such final vote received less than a constitutional majority of the Assembly, I protest as aforesaid, that said bill should have been declared lost.

J. E. HALE.

The Speaker stated that the action on Senate amendments to the bill was not a final action on the bill, and consequently concurrence or non-concurrence in the amendments required a majority vote only.

PROTEST.

By Mr. Griffith:

MR. SPEAKER: The decision of the Speaker and the House to the effect that less than a majority of the whole House can concur in an amendment which may take all the virtue out of a bill, I regard as dangerous. Thus, twenty-one members might concur and a majority of the people not be represented as a necessary consequence. Such decision is certainly not in harmony with our Constitution, nor with our republican institutions. Wherefore I desire to enter my solemn protest against such proceeding.

E. J. GRIFFITH.

March 4, 1881.

PROTEST.

By Mr. Kellogg:

I desire to have my protest entered upon the Journal of this Assembly against the decision of the Speaker in declaring that the Assembly had concurred in the Senate amendments to Bill No. 152, for the reason that the Journal shows that forty-one members did not vote aye in concurring with said amendments.

W. W. KELLOGG, Plumas and Lassen.

Mr. Lane in the chair.

Mr. Van Fleet moved that a committee of three be appointed to wait upon the Governor and, informing him the House would shortly adjourn, ascertain if he had any further communications to make to this Assembly.

Carried.

Messrs. Van Fleet, McCallion, and Freer were appointed such committee.

Mr. Parks in the chair.

THE VALEDICTORY.

THE SPEAKER. Gentlemen of the Assembly: The last duty that devolves upon me as Speaker of this session is now about to be discharged, and before we part I desire to express my grateful acknowledgments to each and every member of this body for the courtesy they have extended to me, and for their aid in preserving the order, the decorum, and the dignity of this House. I have been taught many years ago to believe that it was impossible for one man to govern a body

without its consent. Therefore whatever credit may be given to the Chairman for the order of this House, it must be shared largely with its members. It has been demonstrated frequently, in our sharp contests, but good-natured, that without the consent of the members no presiding officer could have preserved order. Therefore, I say, I desire to tender to you—to each of you—my heartiest thanks for your assistance.

I desire to extend my thanks to the officers of this body and to the attachés. I believe it has not become my duty during the whole session to reprimand any of them, or even call the attention of one of them to their duty. Each has executed his part well. And, now, it remains for us only to adjourn and return to our constituents, there to receive the approval or disapproval that awaits us. I believe that this body has performed its duty well. It may not have done all it ought to have done, but it has done nothing, in my opinion, nothing inimical to the best interests of the State. The short period allotted to us in which to legislate has proven conclusively to me, and I presume to you all, that sixty days is too short a period in which to consider the great subjects that are now before us. And if we had to take up the measures that are yet left without legislation, we must necessarily have been hasty in our conclusions, and perhaps the result would have been much worse than the failure to enact the laws at all. When men are called upon to enact laws involving the interests of individuals, associations, and communities under which men are tried for their honor, their lives, and their property, it requires deliberation—serious deliberation. When you are called on to legislate upon such questions as the proper distribution of political power, giving to each section of the country its proper representation; when you come to enact laws for the government of cities, where all the diversity of interests is concerned, from the highest to the lowest, it must take time. When you come to legislate upon the government of your different sections of country, your county governments, that regulate all the internal affairs of the State, fixing the tenure of office, that requires time. That has been left until another day, and I believe wisely so.

I am not one of those to accede to the clamor that we should have hastily passed upon these measures, and given the people laws that would have been unsatisfactory to them after their enactment. I believe that our constituents, whenever they come to review the matter, will say that it is better that these interests were segregated from general legislation, and a sufficient time taken, even if the expense should be a little greater. That every member here has been actuated by the purest motives, I have no doubt. We have been partisan to some extent—not in a political sense, because that has hardly entered this hall this session—but partisan on measures, and at times have been heated, each thinking the other persistent, perhaps, in his opinion; each thinking the other wrong; but they were friendly contests, and when in our sober thoughts we come to weigh each other's intentions, I think we will each consider that they were honorable, right, and just.

I can say this, gentlemen, because I have occupied this chair almost entirely during the session, not participating in the debates and discussions upon the floor. I have watched your proceedings carefully, and I am willing to accord to each of you that you have acted honorably and faithfully to your constituents, each striving with the other to so act that his own immediate neighborhood should be well represented, without intending to encroach upon the interests of the State at large. Now, as the time has arrived when we must adjourn, I hope that we may soon be called together again to legislate upon those matters which we have concluded to postpone, and that each will return here revived from the sixty days of labor ready to perform these duties. Until that time comes I bid you farewell, gentlemen. I declare the House adjourned *sine die*.

ADJOURNMENT.

At the hour of five o'clock P. M., pursuant to the terms of Assembly Concurrent Resolution heretofore adopted, the Speaker's gavel fell, and the twenty-fourth session of the Assembly of the State of California was declared adjourned *sine die*.

W. H. PARKS,
Speaker of the Assembly.

G. E. McSTAY, Chief Clerk.

GOVERNOR'S MESSAGE.

The following message from the Governor was read:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,
SACRAMENTO, April 4, 1881.

To the Assembly of the State of California:

I herewith transmit to your honorable body a copy of an executive proclamation, calling an extra session of the Legislature, and accompanying message.

GEO. C. PERKINS, Governor.

PROCLAMATION.

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA.

WHEREAS, It is considered by me that an extraordinary occasion now exists for convening the Legislature, now, therefore, under and by virtue of the authority in me vested by Section 9, of Article V, of the Constitution of the State of California, I do hereby convene the Legislature in extra session for a period of twenty days, at the State Capitol, on Monday, the fourth day of April, A. D. eighteen hundred and eighty-one, at the hour of twelve o'clock m.

The purposes for which I have by this proclamation convened the Legislature in extra session aforesaid, are as follows:

First—To enact a general appropriation bill, which shall contain no item or items of appropriation other than such as are required to pay the salaries of the State officers, the expenses of the government, and of the institutions under the exclusive control and management of the State, for the thirty-third and thirty-fourth fiscal years.

Second—To levy the rates of taxation, or, in the discretion of the Legislature, to provide that the State Board of Equalization shall fix such an ad valorem rate of taxation upon each one hundred dollars of taxable property of this State, which, after allowing the per cent. required by law to be allowed for delinquencies in and cost of collection of taxes, shall be sufficient to raise the specific amount of revenue determined upon and directed to be raised by the Legislature for the thirty-third and thirty-fourth fiscal years.

Third—To appropriate money to pay the deficiencies in appropriations for the support of the civil government of this State for the thirty-first and thirty-second fiscal years.

Fourth—To divide the State into Senatorial, Assembly, and Congressional Districts.

Fifth—To enact a general road law.

Sixth—To send appointments to the Senate for their confirmation.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the great seal of the State of California to be affixed, at Sacramento, this twenty-fourth day of March, in the year of our Lord eighteen hundred and eighty-one.

[Seal.]

GEORGE C. PERKINS, Governor.

By the Governor:

D. M. BURNS, Secretary of State.

To the Senate and Assembly of the State of California:

Section 9, of Article V, of the Constitution, empowers the Executive to convene the Legislature on "extraordinary occasions," stating the purpose for which he so convenes it, and prohibiting the Legislature from legislating on any subjects other than those specified in the proclamation.

For the first time in the history of the State has this power been exercised. It is due to your honorable body, as well as to the people whom you represent, that the reasons urging this extra session should be given. Prior to the adoption of the new Constitution the session of the Legislature was fixed at a period of one hundred and twenty days. Under our present organic law it is limited to sixty days. It was supposed that the abolishing of special legislation would have a tendency to materially reduce the number of bills which this character of legislation necessarily required, and comprise in very small compass the duties of general legislation.

The Legislature, at its twenty-second session—the last one under the old Constitution—had introduced in the Assembly eight hundred and fifty-six bills, and in the Senate six hundred and eighty-eight, the session, as has been stated, being one hundred and twenty days. At the last session (the twenty-fourth), under the new Constitution, there were introduced in the Assembly five hundred and twelve bills, and in the Senate three hundred and sixty-eight bills, being about the same ratio. But a provision in our present Constitution, which has been judicially determined, compels three separate readings of bills in full, unless dispensed with by a two-thirds vote of the House in which the bill may be pending, and then only on the ground of urgency.

The sixty-day term includes Sundays, which, deducted, leaves but fifty-one working days. To this we must add the time occupied in organizing, appointment of committees, and all

necessary preparatory work requisite for large deliberative bodies to act systematically, and with some appearance, at least, of established method. Taking into consideration all of these drawbacks, the wonder is, that so much has been accomplished, and not that so little has been done.

The failure, under the circumstances, to meet the required demand for legal enactments on subjects calling for legislative action, has been the theme of considerable comment, and I know of no better or surer method of obviating this difficulty, and enabling the Legislature at its future sessions to dispose of all matters presented for their consideration, than in the appointment of a commission to revise, codify, and put in shape and form the several Codes on the subjects incidental to their respective parts. A commission selected with a view to this end, would present their labors in a compact and well defined body of laws. Understanding the character of the whole work, they would be better able to comprehend its several parts, and adjust and fit them in their proper places. An accurate system of laws would be the result of their labors, and the intent and spirit of the new Constitution would meet with a proper and clear interpretation. While you may not be permitted to enact any law authorizing the appointment of such a commission at the present time, you can, however, give expression of your opinion by resolution, through which the Executive may act, and be ready at the next regular session of the Legislature to present, in well digested and prepared bills, the necessary changes demanded by the alterations in our constitutional form.

The causes which compel me to convene your honorable body again in extra session at this time are set forth in my proclamation of the twenty-fourth of March, of which the following is a copy:

"First—To enact a general appropriation bill, which shall contain no item or items of appropriation other than such as are required to pay the salaries of the State officers, the expenses of the government, and of the institutions under the exclusive control and management of the State, for the thirty-third and thirty-fourth fiscal years.

"Second—To levy the rates of taxation, or, in the discretion of the Legislature, to provide that the State Board of Equalization shall fix such an ad valorem rate of taxation upon each one hundred dollars of taxable property of this State, which, after allowing the per cent. required by law to be allowed for delinquencies in and cost of collection of taxes, shall be sufficient to raise the specific amount of revenue determined upon and directed to be raised by the Legislature for the thirty-third and thirty-fourth fiscal years.

"Third—To appropriate money to pay the deficiencies in appropriations for the support of the civil government of this State for the thirty-first and thirty-second fiscal years.

"Fourth—To divide the State into Senatorial, Assembly, and Congressional Districts.

"Fifth—To enact a general road law.

"Sixth—To send appointments to the Senate for their confirmation."

The necessity for the passage of a law on the first proposition named will be found in Section 22, Article IV, of the Constitution, viz:

"No money shall be drawn from the treasury but in consequence of appropriations made by law, and upon warrants duly drawn by the Controller."

Section 433, Subdivision 17, Political Code, defining the duties of the Controller, says:

"To draw warrants on the Treasurer for the payment of moneys directed by law to be paid out of the treasury, but no warrant must be drawn unless authorized by law, and upon unexhausted specific appropriation provided by law to meet the same."

It is thus clearly seen, that only by and through legislative action can the expenses of the civil government of the State be paid. This omission of the last session is of itself a cause for an extraordinary convening of your honorable body. The remedy is alone in your hands. Constitutional and statutory law alike locks the door of the treasury, and only the key of legislation can open it to dispense its treasure in the support of the State institutions. The second proposition requires you to levy the rate of taxation, or to authorize the Board of Equalization to fix a rate sufficient to meet the demands as appropriated by you. The principle involved was arrived at by our Anglo-Saxon ancestors long before the date of our Declaration of Independence; that is, the power to levy a tax can be exercised only by the direct representatives of the people, duly elected and lawfully assembled. Therefore, without your legislative action no revenue can be derived for the ensuing two years to provide for the support of our Courts, public schools, orphan asylums, prisons, and other State institutions. This would be a calamity that every good citizen who feels an interest in the State desires to see averted.

In regard to the third purpose named I hold it the sacred duty of the State to be scrupulously honorable in its dealings with its citizens—remembering that the creditor of the State has no recourse to recover any debt from it unless by legislative permission. Claims for labor and material performed and furnished the State during the past two years on exhausted appropriations, allowed by the Board of Examiners as just and legal, await your action for their payment, and unless passed upon now must go over for two years. The hardship and injustice which such treatment would occasion, by a neglect to cancel these obligations, would result disastrously to many of those directly interested. I believe the same rule on a business proposition should apply to the State as to the individual citizen, that is, to incur no indebtedness that is not warranted by the necessities of the occasion, or that is not demanded by the people, but when the obligation has been lawfully incurred, we should in honor promptly meet it at maturity.

It will also be required of you to make additional appropriations in some of the items contained in the general appropriation bill for the support of the government for the thirty-second fiscal year; such as for the transportation of the insane, and for prisoners, for expenses of the

Supreme Court, for official advertising, etc., all of which appropriations were underestimated and are now exhausted.

"The census taken under the direction of the Congress of the United States, in the year eighteen hundred and eighty, and every ten years thereafter, shall be the basis of fixing and adjusting the legislative districts; and the Legislature *shall*, at its first session after each census, adjust such districts, and reapportion the representation so as to preserve them as nearly equal in population as may be."

The same section makes it obligatory upon the Legislature to divide the State into forty Senatorial and eighty Assembly Districts.

This is a question that directly concerns the civil rights of the people of the State. The right of representation is the keystone in the arch of a republican form of government; and great care should be exercised that the interest of all may be equally and fairly represented. This adjudication is entirely in your hands, and I have every confidence you will consider it in the light of justice and impartiality.

The division of the State into Congressional Districts will also require your attention. The great area of our State, its immense coast bordering on the Pacific Ocean, its inexhaustible mineral wealth, its great agricultural and other diversified interests, with an increase of population, gives us additional representation in the National Council. The bill that passed one branch of Congress at its last session—and which will doubtless become a law—entitles California to six members of Congress. I am of the opinion the State should be divided into six Congressional Districts; but to guard against a possible contingency, an alternate bill may be passed providing for the districting of the State into five Congressional Districts, to be availed of should California be allowed but five Congressmen.

In calling your attention to the passage of a general road law, I was governed by the fact that all special road laws have been repealed by the new Constitution, and that the general road law passed at the twenty-third session has been declared void and of no force. The lack of a proper system governing and controlling our public highways has given rise to considerable trouble and much annoyance; and it was almost the unanimous wish of every county in the State—especially those devoted to agriculture—that I should request you to devise a plan which would permit each county to understandingly direct and exercise its supervision over its system of public highways.

It has been suggested that in order to avoid in the future the necessity of calling an extra session of the Legislature, that various amendments to the Constitution should be proposed at this session. But I have not deemed it expedient to include them, for the reason that the new organic law has been but recently adopted by a large majority of the people of the State; and I believe it should have a fair and impartial trial, both in spirit and letter, before any change is attempted.

I have also been urged to include in the call for an extra session many other subjects that are of great importance to the State, and upon which legislation is doubtless required. But your honorable body having adjourned its regular session at the expiration of the term named by the Constitution without taking action upon them, I can but assume that you do not consider the measures of sufficient importance to demand your legislative attention at this time. I have, therefore, felt at liberty to name only those subjects which I deem imperative in order to maintain the honor and dignity of the commonwealth.

The purposes for which you have been convened, although important and absolutely necessary in order to maintain the State government, are, nevertheless, of a character easily solved, and will not, I trust, occupy much of your time.

Respectfully,

GEORGE C. PERKINS, Governor.

PRIVILEGED STATEMENT.

By Mr. Mathews, of Tehama, as follows:

ASSEMBLY CHAMBER, SACRAMENTO, April 5, 1881.

MR. SPEAKER: The members of your committee appointed to investigate the charges against Hon. F. L. Hatch desire to return the sum of thirty dollars now in our hands, with the following statement: On the third of March the Assembly adopted the following resolution:

"Resolved, That the Controller of State be and is authorized and directed to draw his warrant upon the Contingent Fund of the Assembly for the sum of three hundred and twenty-eight dollars and thirty-five cents, in favor of Thomas Allen, for services as special deputy to Sergeant-at-Arms in the Hatch impeachment case.

"Resolved, That the Controller of State be and is hereby authorized and directed to draw his warrant upon the Contingent Fund of the Assembly for the sum of six hundred and eighteen dollars and fifty cents, in favor of W. P. Mathews, Chairman of Committee of Investigation in the Hatch impeachment case, for per diem and mileage in the Hatch impeachment case."

The money was drawn by the Chairman of the committee, and by him given to Senator Glascock, of Colusa, with instructions to distribute it in accordance with the list of witnesses, and amounts due, furnished by said Deputy Sergeant-at-Arms Allen. Information has since come into the possession of your committee that said Allen did defraud the State by charging per diem and mileage for persons that were not summoned before the committee, and by charging for and collecting fees for subpoenas that were never served. We further find that said Allen forged the signatures of parties in Colusa County to a power of attorney presented with his report to this committee.

Your committee recommend that immediate steps be taken by this House to recover all moneys illegally paid out, and for the arrest and detention of said Allen until these charges have been duly investigated.

MINORITY REPORT.

By Mr. Kellogg:

MR. SPEAKER: The undersigned, members of the Judiciary Committee, dissent from the opinion and report of a majority of said committee in reply to the question submitted to it by order of the Assembly, viz.: "As to what officers and attachés connected therewith, if any, are entitled to receive mileage for attendance upon the extra session of the Legislature." We are of the opinion that, by the action of the Assembly in declaring that the organization continued, and all of the officers and attachés held over until removed or discharged, that all of the officers named in section two hundred and forty-six of the Political Code, viz.: Speaker, Speaker pro tem., Chief Clerk, two Assistant Clerks, one Sergeant-at-Arms, one Assistant Sergeant-at-Arms, one Minute Clerk, one Journal Clerk, one Enrolling Clerk, one Engrossing Clerk, four Porters, four Pages, one Postmaster, are each legally entitled to mileage.

Further, that while there is no express law upon the subject relating to Gate-keepers, Porters, Committee Clerks, and other attachés not above enumerated, we recommend that in accordance with the action of the Assembly above referred to, that said attachés, who were in attendance at the opening of the session, be allowed mileage from their respective homes.

W. W. KELLOGG,
L. D. FREER,
R. E. ARICK.

By Mr. McClure:

ASSEMBLY CHAMBER, SACRAMENTO, April 22, 1881.

MR. SPEAKER: Your Judiciary Committee, to whom was referred the question of the constitutionality of section two thousand five hundred and fifty-six of Senate Bill No. 4, and the amendment offered by Mr. Long to said section, have considered the same, and report as follows:

First—That they are of the opinion that the section as it now stands is constitutional.

Second—That they are of the opinion that the amendment proposed by Mr. Long is unconstitutional. And,

Third—That the committee are of the opinion that any amendment to said section vesting the power in Boards of Supervisors of counties to levy and collect a road tax, in accordance with the principle embodied in Mr. Long's amendment, from the inhabitants or property of incorporated towns and cities, would be in conflict with section twelve, of article eleven, of the Constitution, which forbids the Legislature to exercise directly the taxing power upon counties, cities, towns, or other municipalities, for county, city, town, or other municipal purposes, and requires the power to be vested in the corporate authorities thereof. Under this section of the Constitution, the Legislature is not permitted to exercise the power itself, nor to vest it anywhere save in the authorities of the community affected thereby.

McCLURE, Chairman.

MINORITY REPORT.

By Mr. Platt (by permission:)

ASSEMBLY CHAMBER, SACRAMENTO, April 22, 1881.

MR. SPEAKER: We cannot agree with the report of your Judiciary Committee in its opinion as to the constitutionality of section two thousand six hundred and fifty-six of Senate Bill No. 4.

We do not think said section constitutional. The inhabitants of incorporated cities and towns

are also inhabitants of counties. In the matter of county affairs there can be no distinction between inhabitants of the county. Any classification would be special and unconstitutional. The Board of Supervisors have jurisdiction throughout the whole county and every part thereof.

Incorporated cities and towns have certain powers under their charters, but not such as to exempt them from county duties and burdens. Their municipal duties and burdens are additional, and are the price they pay for municipal privileges. The incorporated cities can no more be exempted from a county tax than can the inhabitants of the valleys or of the hills.

If the provisions of section twelve of article eleven of the Constitution must be construed as the majority of your committee report, it must follow that the Board of Supervisors can levy no county tax in incorporated cities and towns, and these municipalities would therefore be exempted from all the burdens imposed upon the rest of the county. We are not prepared to adopt such a construction. There are difficulties in the way of so drafting this bill as to reconcile the conflict of jurisdiction between the county and municipal authorities in the matter of street and road building, and repairing, but they are difficulties that will have to be met in the various counties by local compromises.

The bill can be so drawn, probably, as to obviate these difficulties, but we are not at present prepared to suggest the proper amendments.

We would recommend that section two thousand six hundred and fifty-six be stricken out, and think that the bill would be constitutional without it.

H. G. PLATT.
W. D. LONG.
JOS. P. JONES.
E. L. WHIPPLE.
W. W. KELLOGG.
R. F. DEL VALLE.

I concur in that portion of the minority report which recognizes the right of the Legislature to authorize the Board of Supervisors to levy a tax for road purposes upon all property within the county, whether situated within or without the corporate limits of any city or town in such county.

F. E. BAKER.

ED. J. SMITH, Assistant Secretary.

Mr. Alviso had leave to be recorded as voting aye on concurring in the Sears amendment to Assembly Bill No. 10, and Mr. Baker had leave to be recorded as voting aye on ordering Senate Bill No. 4 to the third reading, on yesterday.

EULOGY.

By Mr. Hartson:

In the dispensations of Providence, a sad duty has this day fallen to our lot, arising from the death of our esteemed colleague, Hon. John E. Baker.

The late Assemblyman Baker had so endeared himself to us by his many and rare excellencies of character, that we part from him with more than ordinary regret. A few weeks only have passed since he entered this hall with as sparkling an eye, as ruddy a face, as firm and elastic a step, and as strong a purpose, rich in the promise of prolonged life and continued usefulness, as any of his associates who now deplore his untimely death.

There is this pleasing reflection associated with the sudden demise of our friend and colleague, that it is in accordance with the dispensations of The Great I Am, who does not permit a sparrow to fall unnoticed, and that it was ordained by that Wisdom and Might "that stretcheth out the north over empty space, that hangeth the earth on nothing, that gathereth up the waters into thick clouds, that holdeth back the face of His throne and covereth it with an impenetrable veil of thick clouds, so that the counsels thereof shall remain mysteries and matters of conjecture forever."

Sad and mysterious as it may be, in midlife our friend has passed from this place of duty and honor to that bourne from which no traveler returns. In life he was a genial, upright, and public-spirited citizen, and distinguished among his fellows for that sympathy and charity that exhibited the highest evidence of noble character. When approaching the grave, and knowing that death was imminent, he displayed that same coolness, courage, and fortitude, that he had previously on the fields of hazard and conflict in the service of his country, and later on the

broad and grander fields of civil life. He early adopted and put into practice this advice of the poet:

"In the world's broad field of battle,
In the bivouac of life,
Be not like dumb, driven cattle—
Be a hero in the strife."

To his affectionate wife and four young children we tender our heartfelt sympathy, and trust that the useful and benevolent services our colleague has rendered our country and mankind may be returned by acts of kindness and charity to the bereaved and widowed mother and fatherless children, bereft of paternal counsel, kindness, affection, and support.

From this unexpected event may we learn that life is evanescent, and that all terrestrial engagements are fleeting and transitory; and may we further learn lessons of wisdom and moderation that shall soften asperities, harmonize discords, stimulate friendship, fortify virtue, and promote all of the kindlier and nobler ambitions of life.

We trust that the honored name of our deceased colleague has been transferred from the roll-call of this House to that of the house not made with hands, eternal in the blissful fields of Paradise.

With respect and grief most profound, we will attend to the funeral rites of our deceased brother, rear a monument to his worth, and plant flowers of affection over his grave.

On motion of Mr. Mathews, of Tehama, the above remarks were ordered spread upon the Journal.

ADJOURNMENT.

At ten o'clock and forty minutes A. M., on the motion of Mr. Mathews, of Tehama, the House adjourned out of respect to the memory of the Honorable J. E. Baker, until ten o'clock A. M. to-morrow.

MESSAGE FROM THE SENATE.

The following Senate message was read :

SENATE CHAMBER, SACRAMENTO, May 11, 1881.

MR. SPEAKER: I am directed to inform your honorable body that the Senate, on this day, by a vote of two thirds of the members elected thereto, passed Senate Bill No. 34—An Act making appropriations to pay the expenses of the extra session of the Legislature, and other matters incidental thereto, of the State of California, during the thirty-second fiscal year—notwithstanding the veto of his Excellency the Governor thereto, and herewith transmit the veto message of the Governor.

JAS. A. ORR, Secretary.

MESSAGE FROM THE GOVERNOR.

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }
SACRAMENTO, May 9, 1881. }

To the Senate of the State of California:

I herewith respectfully return to your honorable body, without my approval, Senate Bill No. 34—An Act making appropriations to pay the expenses of the extra session of the Legislature, and other matters incidental thereto, of the State of California, during the thirty-second fiscal year.

The purpose of this Act is in the further appropriation of moneys from the treasury of the State in payment of the expense incurred by reason of the extra session of the Legislature. On the twentieth day of April last, I approved an Act appropriating the sum of forty-two thousand seven hundred dollars for a similar purpose.

It seemed to me that the amount was sufficient to cover every expense, and the subjects to which your attention were called were of a character easy of solution, and could have been accomplished within the time stated in my proclamation. I admit that it is not within the power of the Executive to place a limit fixing the term of a legislative session.

But inasmuch as the Legislature had failed at its regular session to frame certain laws that were necessary for the very existence of the State government, the Executive had no alternative but to again convene your honorable body in legislative session, and he believed you would gladly welcome an intimation of a period of time upon which all would agree to terminate the undertaking. I was strengthened in this belief from the assurance of members of the Legislature—representatives of all the political parties—that the subjects proposed, and issued in the call for an extra session, would not occupy a longer period than two weeks, induced me in part to include a limit of time which should be sufficiently ample in the allowance of the fullest debates on the proposed subjects.

Urgent requests from leading and influential citizens, and importunities from almost every county in the State, were crowded on me to insert within the proclamation many subjects of vital local and State importance overlooked or lost for want of time, at the regular session.

I deemed it my duty to the taxpayers of the State to decline to insert any subject not imperatively demanded, either by constitutional requirement or absolutely necessary to carry on the government of the State. Subject-matters that had been acted upon at the regular session, I could not assume, in the absence of any expression from the members of the Legislature to the contrary, would not be reconsidered by the same members only a few weeks later, and if named would tend only to prolong the session, with its attendant expense. Hence, the subjects presented for your consideration were only those that were considered imperative, viz.: a general appropriation bill; the levy of taxes necessary for the support of the State government; the payment of deficiencies incurred from lack of sufficient funds in certain appropriations; the

division of the State into Senatorial, Assembly, and Congressional districts, expressly directed by constitutional requirements; and also the enactment of a general road law.

Bills on the above named subjects were introduced at an early day at the regular session; their passage was urged as being of vital importance to the best interests of the State; no valid reason has ever been assigned why such action was not consummated. An extra session was made inevitable through this failure to provide for the support of the government; and every subject was eliminated from the call likely to cause heated discussion or to produce unfriendly feelings.

In view of these facts, and in the full belief that your honorable bodies have had ample time to transact the business for which you have been especially convened, I respectfully return this bill, without my approval.

GEO. C. PERKINS, Governor.

MR. SPEAKER: I am directed to inform your honorable body that the Senate, on this day, concurred in Assembly Concurrent Resolution No. 7, relative to adjournment sine die of the Legislature of the State of California.

SENATE CHAMBER, SACRAMENTO, May 11, 1881.

MR. SPEAKER: I am directed to inform your honorable body that the Senate, on this day, adopted the report of the Committee of Free Conference on Senate Bill No. 4—An Act to repeal chapter two, of title six, of part three, of the Political Code, and each and every section of said chapter two, and to enact a new chapter two, of title six, of part three, of said Code, and substitute the same in place of said repealed chapter two in said Code, relating to roads and highways.

ED. J. SMITH, Assistant Secretary.

MESSAGE FROM THE GOVERNOR.

The following message from the Governor was read :

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }
SACRAMENTO, May 12, 1881.

To the Assembly of the State of California :

I have to inform your honorable body that I have approved Assembly Bill No. 10, entitled an Act to amend section three thousand seven hundred and thirteen of the Political Code, and

to provide for the levy of the tax for State purposes for the thirty-third and thirty-fourth fiscal years.

Also, Assembly Bill No. 8, entitled an Act making appropriations for the support of the government of the State of California for the thirty-third and thirty-fourth fiscal years—with the exception of the following items of appropriation, to which I object, to wit: "For the purchase of lime, cement, and other articles necessary for the construction of a wall about the State Prison at Folsom, ten thousand dollars." At the time of signing said bill, I appended to it a statement of the said items to which I object, and the reasons for such objections, a copy of which statement is in the words as follows:

"Before the adoption of the new Constitution, the promoters of schemes for appropriating the money of the State which otherwise would not receive the sanction of the Legislature or the Executive, frequently adopted the device of incorporating such measures in the General Appropriation Bill, and the Executive was thus forced, at the last moment, to approve of vicious legislation, because to do otherwise would be to leave the State without any revenue for the succeeding year or years.

"The framers of the Constitution, knowing the evil, undertook to correct—or rather to prevent—it, by the adoption of section twenty-nine, article four, which reads as follows:

"The General Appropriation Bill shall contain no item of appropriation other than such as are required to pay the salaries of the State officers, the expenses of the government, and of the institutions under the exclusive control and management of the State."

"I do not believe that the appropriation for building a wall around the prison at Folsom is properly 'an expense of the institution,' any more than it would be to construct a new wing to the building; and I therefore withhold my approval from such item of appropriation.

"I can come to but one conclusion—that the phrase, 'expenses of the government and institutions,' means, and was meant to mean, such expenses only as are previously provided for by law—about which there can be no doubt as to the amount necessary to be raised, and for which it is the clear duty of the Legislature to provide.

"To say that such expense includes the building of a wall, or the adornment of grounds, is to subject the appropriation bill to be weighted down by every extravagance in respect to the several institutions distributed throughout the State which the local pride of the people, or representatives of the counties in which they are situated, may devise. I believe such expenses are those only which arise out of the necessary administration of the internal economy of the government or her institutions, and without provision for the same such institutions could not be maintained."

It is with great reluctance, and doubt as to my duty in the premises, that I approve of the items of appropriation relating to the improvements at the Napa Insane Asylum, and to the furnishing the Normal School at San José, and the Branch Normal School at Los Angeles. The insane must be provided for, and the appropriation seems absolutely necessary to the humanitarian and sanitary management of the Asylum and the protection of the buildings.

The appropriation for the furnishing of the Normal School, it is urged, is a necessary corollary of the establishment of the school, and is, for the first year at least, a necessary expense, because without such appropriation the buildings, when completed, must lie idle for nearly two years.

For these considerations I have waived my objections, and given to these appropriations for the above two institutions the benefit of the constitutional doubt. It is to be hoped that hereafter the General Appropriation Bill shall contain no item obnoxious to the spirit if not the letter of the provisions of the Constitution above quoted.

GEORGE C. PERKINS, Governor.

STATEMENT AND PROTEST.

ASSEMBLY CHAMBER, SACRAMENTO, May 11, 1881.

MR. SPEAKER: The undersigned, the members of the Committee of Free Conference on the part of the Assembly on Assembly Bill No. 10, to confer with a like committee of the Senate on the disagreements between the Senate and Assembly thereon, beg leave to submit the following statement of the proceedings of said conference, and to the end that no injustice be done the undersigned from a partial and inaccurate statement of the proceedings of the conference made by the Senate members of the committee to their own body, respectfully ask that the same be spread on the Journal of the Assembly, to wit:

STATEMENT.

The two committees, upon meeting, decided that no reporters should be admitted to the conference, and that no statements should be made of the results of their deliberations otherwise than in accordance with parliamentary law, which simply required a report to each house of an agreement or disagreement upon the two questions submitted to them for adjustment, viz.: The Senate amendment to Assembly Bill No. 10, reducing the sum to be raised for school purposes to one million three hundred thousand dollars, and the Senate amendment to the same bill providing against levying a tax for drainage purposes. An informal vote was taken on the first proposition before discussion, and with the express understanding that in no case should it be considered final, which developed the fact that the Senate committee was solid in favor of the amendment, and concession could only be expected from the Assembly committee.

The consideration of the amendment relating to the drainage tax was commenced by Mr. Sears asking of the Assembly committee their objections, which were frankly stated, as follows:

That the Tax Levy Act, as it passed the Assembly, was sufficient to carry out the design of the laws in force, and contained all that was necessary; therefore, that any amendment would not only be redundant, but mischievous. That this particular amendment was evidently designed to defeat the action of a law in good standing upon the statute books, and we had no right to adopt such means to accomplish that end, even if the Legislature had the power—which was denied—inasmuch as the proposition involved was not included in the subjects designated by the Governor for legislation at this extra session. That the amendment as it stood rendered the entire tax levy unconstitutional and void, and by its adoption the warrants for the State officers and State institutions would be subjected to a heavy discount, and the public schools left entirely without the proposed fund—a calamity that no Legislature should hazard. That the drainage tax was provided for in the Act creating the Commission, and could not be properly defeated except by a repeal of that law, which could not be done directly or indirectly now.

To the further amendments submitted by the Senate committee, and mentioned in their said report, to the provisions of the Tax Levy Act, in respect to which there was no disagreement between the two Houses, the Assembly committee peremptorily refused to consider the same, on the ground that the authority of the committee was absolutely limited to the matters of disagreement between the two Houses.

The foregoing statement correctly represents the actions and proceedings of the Assembly committee at said committee conferences, on the points of disagreement herein mentioned, and all that occurred in relation thereto at said conferences of said committees, except certain individual suggestions and replies between Messrs. Sears and Hale, in which neither spoke for nor assumed to speak for their respective committees, and were of an inconsequential character.

W. B. MAY,
J. E. HALE,
JOHN DAGGETT.

On the motion of Mr. Leake the above statement was ordered spread upon the minutes.

SPEAKER'S REMARKS.

At eleven o'clock and fifty minutes A. M., the Speaker addressed the Assembly as follows :

I desire to thank the members for the courtesies extended to me, and the officers and attachés for the aid so cheerfully rendered me.

The House has been subjected to severe criticism in the papers, and has been outrageously misrepresented by the press. But time will make all things right. I fear the public do not fully realize the difficulties surrounding the Legislature under the present Constitution. I would challenge the highest intelligence to frame the necessary laws in sixty days, let alone getting eighty men to agree to them. It will be a sad day for the State when it has a Legislature that will legislate literally, according to the letter of that marvelous instrument. What are legislators to do—make unconstitutional laws, or disagree? What could they do but the latter. I believe the day near at hand when the Constitution will be stripped of its evils by the voice of the people through the Legislature, or in a Convention. Evil must be the state of affairs so long as it exists unchanged.

Meanwhile let the press howl. As for myself I have the consciousness of having done my duty as I conceived it, faithfully to the people, and under the dictates of my oath. I have had the support of the members of this branch over which I have presided. More than that I do not ask. The press attacks on myself I care not for, I can wait for vindication, and the truth will come out in time, in spite of misrepresentation and embittered prejudices. I bid you all adieu.

ADJOURNMENT.

Approved:

W. H. PARKS, Speaker.
